Chapter 3 Healing

Theory & Workbook

Theory

Magic means a ritualistic handling of situations and physical or mental elements with the goal of creating something that is not yet in full manifestation. In that sense, magic is a form of ritualizing the creative process. Magic means you put specific energy focus into your procedure. The only Magic that is True is Love, in other words: magic can never be real when it is done with manipulation energy behind it.

In another way, magic means healing. When you are a fully healed person, you have all your soul bound good in your life manifested in the form of your Twin Flame as life partner, a blooming money life on the base of executing your mission, a satisfying food life, an optimal health and so forth. Often, we are not there yet, and thus we can also not contribute to the world yet from that full place filled with peace. To be able to get there, we then use ritualized actions with the purpose of healing ourselves into that state.

Both approaches are in essence the same; whether you heal yourself or create yourself into your ultimate life, it's both a matter of helping forward the transformation from where you are towards everything you can be and mean for others. There is a whole range of what could be possible in magic. We'll connect it to the Creative ID system here, and select a couple of branches that come to mind:

water – sensitive to all vibrations that it can contain and amplify
wand – focus your energy in one choice
crystal – frequencies of the earth assist in certain attunements
herbs – frequencies of plant life assist in certain attunements
sexual – applying your own inherent energy source for certain attunements
word – language has creational power because it gives off vibrations
image – images have creational power because it gives off vibrations
music – amplifying certain vibrations with sound waves
number – amplifying certain vibrations with mathematical structures
money – amplifying certain vibrations with value structures

This is a list of a couple of avenues to walk in magical practices, with references; it is taken from the book *Nine Entrances to Conscious Creativity*.

water – sensitive to all vibrations that it can contain and amplify, which is mainly handled in program Abundance Now Abundance Building chapter 7 Master your Miracles

wand – focus your energy in one choice, a great and concise book for this that I advice is Evan Twede, *Wanding*, below more because I will highlight this magical avenue

crystal – frequencies of the earth assist in certain attunements, a great tip is the book & cards of Judy Hall, below more because I will highlight this magical avenue

herbs – frequencies of plant life assist in certain attunements, this is an awesome book <https://www.amazon.com/Secrets-Plantes-Medicinales-Selection-Readers/dp/2709800179> but it's French and it exists in a Dutch translation also, this can be a great English starter book that is digital as well from Rosemary Gladstar <https://www.amazon.nl/-/en/Rosemary-Gladstar-ebook/dp/B0B5LL3Q2J/>, below more because I will highlight this magical avenue

sexual – applying your own inherent energy source for certain attunements, this course is the best resource for that :)

word – language has creational power because it gives off vibrations, which is mainly handled in program Abundance Now Experience Calls Chapter 7 Writing

image – images have creational power because it gives off vibrations, which is mainly handled in book *Innovate Yourself* and program Abundance Now Experience Calls Chapter 9 Senses and Communication

music – amplifying certain vibrations with sound waves, which is mainly handled in book *Innovate Yourself*

number – amplifying certain vibrations with mathematical structures, which is a topic in the Manifest & Heal Cards that come with an elaborate book but they are currently not yet out for third party buying but there are readings with in on social media, you can watch video's and you can indicate your interest in buying already, here you can read about it: <https://www.creativeuniverse.earth/publications/>

money – amplifying certain vibrations with value structures, which is mainly handled in book *Get Your Business Brains On*, which you can buy as ebook, see: <https://www.creativeuniverse.earth/#read>

There are three magical practices highlighted in the ecourse Sexual Magic: wandings, crystals and herbs.

What also comes to mind is that I used a combination of these magic arts – so to speak – in my series of nature rituals I held for a hand full of years to download the body of work we are now working with. You can read my story about it here: <https://www.creativeuniverse.earth/my-time-with-the-master-christ/>

The Creative ID Reading gives you channeled suggestions for symbols and elements to use in your magic, that are personalized: <https://www.creativeuniverse.earth/reading/#cid>
